

OVERVIEW

The Andaman and Nicobar Islands were shrouded in mystery for centuries because of their inaccessibility. These are the paragon of beauty and present a landscape full with scenic and picturesque extravaganza. These islands shimmer like emeralds in the Bay of Bengal. The dense forest which covers these islands and the innumerable exotic flowers and birds create a highly poetic and romantic atmosphere. "Here the white beaches on the edge of a meandering coastline have palm trees that sway to the rhythm of the Sea. The beat of tribal drums haunts the stillness and technicolor fish steer their way through crystal clear water." This addition of strangeness to beauty which is responsible for creating the infinite romantic impact may be described in the following famous lines of Keats.

The Andaman & Nicobar are a group of picturesque Islands, big and small, inhabited and uninhabited, a total of 572 islands, islets and rocks lying in the South Eastern Part of the Bay of Bengal. They lie along an arc in long and narrow broken chain, approximately North-South over a distance nearly 800 kms.
